**(54) METHOD FOR BIDDING FOR LICENSING OF
PATENT RIGHT OR THE LIKE**

(57) Abstract:

PROBLEM TO BE SOLVED: To provide a contract method for maximizing the possibility of proper licensing of patent, etc., by introducing a market mechanism (competition principle) when concluding the licensee contract of intellectual property right such as patent right so as to properly select a licensee with implementing capacity and so as to make the contracted licensee take proper responsibility.

SOLUTION: A prospective licensing amount P_k ($k=1, \dots, N$) during a prescribed period T after contract and a contract temporary money (initial payment) X_k ($k=1, \dots, N$) and/or a licensing rate (turning royalty) Y_k ($k=1, \dots, N$) are presented from each applicant. It is desirable to fix the lowest limit price to the contract temporary money and/or the licensing rate in advance.

A period income $R_k = X_k + P_k \cdot Y_k$ ($k=1, \dots, N$) is calcu-
